Summary:

Recent Full Stack Bootcamp Graduate that has a background in Logistics and Transportation. Eager to apply newly gained skills to further my development in a professional field. Through my non-technical roles, I have gained communication, leadership, and customer service skills.

Technical Skills

Frontend: HTML, CSS, jQuery, JavaScript, Bootstrap, Materialize
Backend: Node, Express, MongoDB, GraphQl, SQL
Other: React

Projects

Password Generator:
> **https://scrutch93.github.io/Password-Generator/**
- Application allows users to generate their own password.
- Users are prompted with questions that inquire how many and what type of characters are desired for the new password.
- Tools/Languages: Javascript, CSS

Weather App/Dashboard:
> **https://scrutch93.github.io/Weather-Dashboard/**
- Allows the user to see current weather forecast as well as forecast for 5 days out of the week.
- Users are able to search for a city, and the weather information for that city location is pulled from an API.
- Tools/Languages: JavaScript, Bootstrap, jQuery, API

Work Day Scheduler:
> **https://scrutch93.github.io/Work-Day-Scheduler/**
- Allows user to write notes to a planner that stores info.
- The planner input slots will change color depending on the time of day.
- Tools/Languages: Bootstrap, JavaScript, Moment.JS
